RE: FOI clarification
Date: 10/24/03

The planned parenthood organization that this Department purchases some services from was originally titled, Planned Parenthood Association of Delaware & Otsego Counties, Inc. That organization merged with another organization that is now titled, Planned Parenthood of South Central New York, Inc. Our old contract is still valid despite the name change to the organization. We only serve eligible clients in Delaware County. The services are exactly the same and are those described in our regulations. To summarize, an organization changed its name. That is all that has changed.
